

HOISTING PLUGS

This is an essential tool to lower and hoist the drill rods and casing tubes. This includes a thrust ball-bearing which makes it easy to freely rotate. Hoisting capacity of S and L type are 2 tons and 5 tons respectively. LD type of 15 tons capacity is recommended for greater depth and large diameter hole drilling.

Model	S	L	LD
Hoisting Cap.	2 tons	5 tons	15 tons
Connection thread	AW	NW	LHS pin
Weight	3.6 kg	5.0 kg	30 kg
